Exam : **ST0-075**

Title : Symantec Data Loss
Prevention 9.0 (STS)

Version : DEMO

1. What is a three-tier Symantec Data Loss Prevention 9.0 deployment?

- A.two Enforce Servers deployed on the same host as the database
- B.three different detection servers deployed on separate hosts
- C.Enforce Server and a detection server deployed on the same host as the database
- D.Enforce Server, detection servers, and the database deployed on separate hosts

ANSWER: D

2. A policy manager wants to apply policies only to certain employees with a specific classification level. Which TrueMatch detection method can help accomplish this?

- A.Directory Group Matching (DGM)
- B.Exact Data Matching (EDM)
- C.Described Content Matching (DCM)
- D.Indexed Document Matching (IDM)

ANSWER: A

3. Which component of Microsoft Outlook Personal Folder (.pst) files does Network Discover apply filters to?

- A.individual emails in the .pst file
- B.the entire .pst file
- C.attachments in the .pst file
- D.folders in the .pst file

ANSWER: B

4. Which three are valid Scanned Content filter types for the Discover File System target? (Select three.)

- A.Exclude filter
- B.File Size filter
- C.Read ACL filter
- D.File Owner filter
- E.File Date filter

ANSWER: ABE

5. Which three statements apply to communication between the Enforce Server and detection servers? (Select three.)

- A.By default, the Enforce Server and the detection servers communicate over port 8100.
- B.Port 3389 must be open between the Enforce Server and the detection servers.
- C.The same port number must be used for all detection servers.
- D.The servers can be configured to use any port higher than 1024.
- E.IPSec must be configured on the Enforce Server and the detection servers.

ANSWER: ACD

6. What must a system administrator do for Network Monitor filter configuration changes to take effect?

- A.recycle VontuManager and VontuMonitorController services on Enforce

- B.recycle PacketCapture process on the Network Monitor
 - C.recycle VontuNotifier service to propagate changes to Network Monitor
 - D.recycle Network Monitor server from the Server Detail page
- ANSWER: D

7. Why do companies deploy data loss prevention solutions? (Select two.)

- A.to protect their perimeters from external threats
- B.to help protect their brands and reputations
- C.to prevent employee access to undesirable websites
- D.to encrypt sensitive data to ensure secure transmission
- E.to reduce the likelihood of data breaches and related costs

ANSWER: BE

8. What are three benefits that data loss prevention solutions provide that other security technologies or tools do not? (Select three.)

- A.give visibility into where sensitive data is stored
- B.give insight into capacity planning for sensitive data
- C.identify who has access to sensitive data
- D.indicate where sensitive data is being sent
- E.measure encryption strength for sensitive data

ANSWER: ACD

9. Which three are examples of confidential data? (Select three.)

- A.national ID numbers
- B.published press releases
- C.health information
- D.CAD drawings
- E.manufacturing plant locations

ANSWER: ACD

10. What does a data loss prevention solution help an organization identify? (Select three.)

- A.employee education opportunities
- B.risk of virus infection
- C.unprotected content on laptops
- D.illegally obtained software on desktops
- E.encryption enforcement opportunities

ANSWER: ACE

11. Which three describe an effective data loss prevention (DLP) program? (Select three.)

- A.DLP is a company-wide initiative.
- B.DLP is primarily driven by Information Security.
- C.DLP is primarily driven by the Incident Response Team.
- D.Employee participation is important.
- E.Business stakeholders are held accountable for risk reduction.

ANSWER: ADE

12. Which two products are required for quarantining confidential files residing inappropriately on a public file share? (Select two.)

- A.Network Discover
- B.Endpoint Discover
- C.Network Monitor
- D.Network Prevent
- E.Network Protect

ANSWER: AE

13. Which product can replace a confidential document residing on a public share with a Marker File explaining why the document was removed?

- A.Network Prevent
- B.Network Protect
- C.Network Monitor
- D.Network Discover

ANSWER: B

14. Which product lets an incident responder see who has access to confidential files on a public file share?

- A.Network Protect
- B.Network Monitor
- C.Network Prevent
- D.Network Discover

ANSWER: D

15. Where does an incident responder find the exact matches that triggered an incident?

- A.Dashboard report
- B.Incident Snapshot
- C.Incident List
- D.System Events report

ANSWER: B

16. Under which high-level node in the left navigation panel can administrators find the System Events report?

- A.Reports
- B.Policy
- C.System Health
- D.Administration

ANSWER: D

17. Under which high-level node in the left navigation panel can administrators find the Discover Targets

page?

- A.Policy
- B.Reports
- C.Administration
- D.Data at Rest

ANSWER: A

18. Which products run on the same detection server?

- A.Network Protect and Network Discover
- B.Endpoint Discover and Network Discover
- C.Network Monitor and Network Prevent
- D.Network Discover and Network Monitor

ANSWER: A

19. What is a function of the Enforce Server?

- A.provides a GUI for policy creation
- B.detects incidents
- C.writes incidents to all detection servers
- D.deploys agents to endpoint computers

ANSWER: A

20. Which database does Symantec Data Loss Prevention 9.0 support for incident and policy storage?

- A.Oracle 10g version 10.2.0.4
- B.any version of Oracle 10g
- C.Oracle 10g version 10.2.0.1
- D.Microsoft SQL Server

ANSWER: A
